Act Section 20 – Registered contractor’s entitlement to long service benefit
Determination 5 – Employee pay rate and contractor pay rate

Policy: For the purpose of Sections 19 and 20 of the Act, the Board considers the same standard rate of pay should be used to calculate benefit entitlements for both employees and contractors.

As required by Determinations 5, the Board sets the pay rate for both employees and contractors at \$810 per week. This rate is effective from 1 July 2005.

This is intended as a guide to interpretation only and does not prevent the Board from changing the rate at any time.
